

June 2022

# The Viewpoint

The summer has started out on a very warm note. Hope people are finding ways to keep cool.

Just a few things:

1. Please disregard any email that comes to you asking if you have time to do me a favor and get gift cards or send money. I would not do that via email without prior phone conversation with you or it being posted in our newsletter. I know my schedule is very busy but getting gift cards and money is not one of things I would ask. For some reason this scam email has been going to people in the photo club and nowhere else. I am not sure how to remedy it.

2. Speaking of money, the board is looking for ideas on ways to raise funds for our organization. Currently we have the annual contest, the IYP classes. Please submit ideas to me via email for discussion.

3. Wennie Anderson has sent out requests for framed and matted photographs to display and/ or sell in the clubhouse. So that we can be open for visitors.

Please contact her to make arrangements to drop off or pick up past works.

### **How to Judge and Judging Definitions**

#### **IMPORTANT NOTE**

Do not disqualify an image. If you feel the image is in the wrong category, **DO NOT DISQUALIFY** the image. Simply give it a low vote. Then there are two things you can do. You can leave comments in the Critique for the image stating why you think the photo does not belong. Or you can discuss your thoughts on competition night. If you feel the image must be disqualified, please contact myself or any board member as soon as possible.

Click on the *Judge* tab, then *Judging Queue*. Scroll down and click *Select* for the competition to be judged. (The judging category definitions are listed on the second page.)

Scroll down and select a *Level*, beginning with Basic. If there are entries in that level, they will be displayed. If there are no entries, nothing will be shown. Select the Intermediate, then Advanced level.

Thumbnails of the entries will be displayed. Double click on the photo on the left to go to full screen mode. At the bottom left of the screen is a Score box. Enter a score in the box, 1-9, 9 being the highest score possible (if you enter a number larger than 9, the system will reduce it to 9). Click Next to move to the next photo. Click Update, then click Exit when you are done. On Judge Competition page, scroll down and put a check mark in the box for *My Scores, rankings, and critiques have been completed for all Competition levels*. You are done.

Note: You are not allowed to score your own images. When you are scoring you will be able to enter a score for your image, but when you are done the system will not record that score.

These **three criteria** are what should be used when you are judging an image.

#### **ARTISTIC / Wow Factor**

This is the most important and possibly the simplest. The judge should ask, does this image have impact? Does it stand out? Is the image appealing? Does the image interest the viewer; provide the viewer pleasure/ interest or effectively communicate a message?

## **COMPOSITION** / Creativity

What compositional or creative elements such as color, light leading lines, subject placement, cropping, etc.-make the image work and add to the composition or take away from it? In the assignment division, does the image relate to the subject of the assignment?

Cropping

Subject Placement

Rule of Thirds

Lines

Shapes

Texture

Good Eye Movement

## **TECHNICAL**

How do the technical elements such as exposure, selective focusing, print quality, Sharpness, etc. contribute to the image?

Appropriate to the Category

Quality of the Presentation (mounting)

Subject Sharp

Good Background

Unique Angle or Treatment

Good Use of Color, Tone, Contrast
